Phase II Science on Display in Chicago: Phase II Opera with Carl Zeiss Microscopy Tools

Phase II: Microscopy Tools

In Phase II, the Science Museum of Minnesota will launch an opera with Carl Zeiss Microscopy Tools. The opera will feature a world premiere of "The Microscope" by composer Peter Eötvös and librettist Peter Eötvös. The opera will be performed in the Science Museum's Atrium Theater and will be accompanied by a live orchestra. The performance will include an interactive microscopy exhibit where visitors can explore the microscopic world using Carl Zeiss microscopes.

Information Visualization: MSCC Students Present Their Work

The MSCC (Minnesota Science and Computing Center) students presented their work on information visualization at the 2019 Conference on Information Visualization. The students created visualizations that help to understand complex data sets and provide insights into various fields such as healthcare, finance, and environmental science. The presentations included interactive tools and data-driven visualizations that cater to different user needs.
