Mapping & Measuring Scientific Output

Educational Events

Gali Halevi
M.L.S.; PhD
Director of Government Segment Marketing
Elsevier
Symposium Themes Based on Registrants Feedback
Background

The symposium was conceived by Miriam Blake from LANL and Gali Halevi from Elsevier via the Research Connect program.

The purpose of the symposium was to discuss existing and emerging research measurements metrics and visualization methods.

The event was webcast live globally and attracted over 500 people worldwide.

Speakers: Eugene Garfield, Henry Small, Henk Moed, Jevin West, Johan Bollen, Kevin Boyack, Katy Borner, and Brad Paley.
Discussion Points:

2. Scientific leadership– Institution & Researcher levels.

3. The power of networks and what they reveal about how science is conducted.
