Brief Bio and (PR)^2: Problems & Pitches – Rants & Raves by Brian Haugen

Brian Haugen is a Health Science Policy for the National Institutes of Health, supporting the NIH RePORT and RePORTER projects for the Office of Extramural Research. Previously, he was a Senior Scientist for Analysis and Evaluation at National Institute for Child Health and Human Development, where he co-led data management and data analytic projects for the National Children’s Study. Brian first came to the NIH as a Presidential Management Fellow in 2007, and carried out detail assignments across several NIH institutes and Centers in program, policy, review, and information technology. Prior to joining the NIH, he earned his PhD in microbiology from the University of Wisconsin-Madison.
