SLIS, INDIANA UNIVERSITY, BLOOMINGTON

PHP Programmer

Job Description

The [Cyberinfrastructure for Network Science Center](#) at SLIS, Indiana University, Bloomington is seeking a highly motivated PHP Programmer.

The Cyberinfrastructure for Network Science Center is affiliated with the School of Library and Information Science, and maintains offices in the Herman B Wells Library. We offer a small supportive environment that recognizes initiative, creativity and vision. We value open communication, a team orientation and a positive attitude toward change. For further information on current research directions and projects, please see the CV of Dr. Katy Borner, Victor H. Yngve Associate Professor of Library and Information Science at <http://ella.slis.indiana.edu/~katy/cv/index.html>

The successful applicant will work on a knowledge management system focused upon the implementation of a database-driven web site (<http://ivl.slis.indiana.edu>). This is a great opportunity to gain experience in developing real-world, dynamic web applications in a team-centered work environment. We are looking for a long term programmer who can devote at least 20 hours and up to 40 hours per week.

Qualifications

- Undergraduate or graduate students in computer science, information science, or a related technical discipline required.
- 1-2 years of PHP programming required.
- Good understanding in OOP PHP development.
- Experiences in PHP-based framework (e.g. cakephp) will be a plus
- Knowledge or implementation of web services (e.g. REST) will be another plus
- Good knowledge of SQL, HTML, and CSS.

Wage & Hours

\$10-15/hour depending on qualifications; up to 40h/week.

How to Apply

Send a cover letter and resume to Nianli Ma at nianma@indiana.edu.
